

Ozone Generator Cell **FQT-574**

BEYOK
百悦康☆☆☆☆

Ozone Output:	3-5 g/hr @O ₂
External gas source:	2L/min@oxygen
Ozone Generating Method	Corona Discharge
Electrical:	AC220V-AC110V-DC12V, 50W
Ozone Outlet Connection:	Φ6mm SS quick screw joint
Case:	Aluminum profile
Ozone Adjustable:	Can be adjusted
Dimension (LxWxH):	5.9"×2.0"×7.0" (150×50×180 mm)
Installation Dimension (LxW):	3.5"×6.1" (90×156 mm)
Net Weight:	- kg

The FQT-57X series of BEYOK ozone generator cells use ozone core discharge of invention patent including the integration design of ozone generator tube and ozone driving circuit (without air pump), they can provide stable and efficient ozone output, easy to install and maintain.

Features:

- High-efficiency titanium material ozone tube
- Forced cooling
- Integrated design two in one unit with driving circuit and ozone generator tube
- Stable & efficient output
- Low noise
- Long working life

Benefits:

- High efficient broad-spectrum sterilization
- Good dispersion
- Without ozone residual and secondary pollution

Application:

- Medical apparatus and instruments, air purifier, disinfection cabinet, refrigerator, dryer, shoe ark, wardrobe, beauty equipment, oxygen machine, toilet, incubator, car.
- Washing machine, dishwasher, water machine, water purification machines, coin-operated sale water, fruit and vegetable detoxification machines, aquatic animals, the spa machine, surfing bathtub, slimmer.
